

MUHAMMAD YUSUF

MIDDLE FULL-STACK DEVELOPER

Tashkent, Uzbekistan • +998 91 780 99 60 • yuvsufn@gmail.com

Portfolio: muhammad-yusuf.uz • GitHub: github.com/muhammadyusuf622 • LinkedIn: Muhammad Yusuf Nasrulloh

PROFILE

Middle Full-Stack Developer focused on building production-oriented web and mobile applications with TypeScript, React, Next.js, Node.js and NestJS. Experienced across frontend, backend, databases, real-time communication, payment integrations, REST APIs and deployment. Built and shipped end-to-end products including learning platforms, healthcare systems, hotel management software, social applications and Stripe-powered services.

CORE STACK

Frontend: TypeScript, JavaScript, React, Next.js, React Native, Redux Toolkit, TanStack Query, React Hook Form, Tailwind CSS, shadcn/ui, Material UI, Ant Design

Backend: Node.js, NestJS, Express.js, REST APIs, WebSockets, Socket.IO, Webhooks, JWT, Passport.js, Swagger, Microservices

Data: PostgreSQL, MongoDB, MySQL, Redis, Prisma, Mongoose, Sequelize

Payments: Stripe, Checkout Sessions, Subscriptions, recurring billing, payment webhooks

DevOps: Docker, AWS, DigitalOcean, Nginx, PM2, CI/CD, Linux, SSH, Vercel, Heroku

Tools: Git, GitHub, GitLab, Postman, Figma, ESLint, Prettier, Vite

SELECTED PROJECTS

Ezguide — Online Learning Platform

Next.js • NestJS • Stripe • MongoDB • shadcn/ui

- Built an online learning platform with structured courses, certificate issuance and administrator-controlled access.
- Integrated Stripe-powered payments and subscription/billing workflows; implemented protected enrollment and account flows.
- Designed the application across frontend and backend layers with a focus on maintainability and secure API integration.

Hotel Management Platform

Next.js • TypeScript • Ant Design

- Built a multi-role hotel management platform for guests, administrators and directors.
- Implemented room booking, room status, meal ordering, checkout tracking, revenue visibility and multi-branch administration.
- Delivered dedicated Admin and Director panels for operational and management workflows.

MDH Hospital

React • NestJS • TypeScript • PostgreSQL • Prisma

- Developed a healthcare platform for doctor appointment booking, queue tracking and patient workflows.
- Implemented real-time queue/status functionality and an emergency-call flow.
- Worked across frontend and backend architecture, authentication, database modeling and API integration.

LingoStep

NestJS • MongoDB • Socket.IO • JWT

- Built an English-learning platform combining live video-chat practice, public chat rooms, typing exercises and quizzes.
- Implemented real-time communication and authentication flows using Socket.IO and JWT.
- Designed backend APIs and data flows for interactive learning features.

EXPERIENCE

Middle Full-Stack Developer | Independent / Professional Development

2024 – Present • Tashkent / Remote

- Design and build full-stack web and mobile applications end to end, from data modeling and API design to frontend implementation and deployment.
- Develop reusable frontend interfaces and backend services using TypeScript, React, Next.js, Node.js and NestJS.
- Work with PostgreSQL, MongoDB, Redis and ORM/ODM tooling including Prisma, Mongoose and Sequelize.
- Implement authentication, real-time communication, webhooks, third-party API integrations and payment workflows.
- Deploy and maintain applications using Docker, Nginx, PM2, cloud infrastructure and CI/CD workflows.

EDUCATION

Full-Stack Web Development — Najot Ta'lim

2024 – 2025 • Tashkent, Uzbekistan

LANGUAGES

English: B2 • Turkish: Basic • Russian: Beginner

PROFESSIONAL FOCUS

Scalable and maintainable products • Backend architecture and API design • Modern React/Next.js applications • Payment and third-party integrations • Real-time systems • Production deployment
